

Kim Carnes, Let Your Love Come Easy

(Kim Carnes/Dave Ellingson)

Let your love come easy
Let it fall with the summer rain
Let your love come easy
And watch it come down again and again

I'll keep the porch light burning brightly
Help you find your way
'Cause you've been know to get sidetracked baby
Take a one-way street that leads straight to me

Let your love come easy
Let it fall with the summer rain
Let your love come easy
And love will come down again and again

I knew a man in Egypt
Had exactly two hundred wives
And early every night
He'd turn out the lights
And everyone was satisfied

He let his love come easy
Let it fall with the summer rain
Let your love come easy
And love will come down again and again
