

Kim Carnes, Sailin'

(Kim Carnes/Dave Ellingson)

Sailin'
Ridin' on the crest of a dream
All we need is a breeze
Some help fromt the wind
Sailin'
Out of my dreams
And into the night
We may never come back again
When we go sailin'

I've been all over the ocean
I've traveled through a million years
Every face I see
Brings it home to me
That I all ever loved is here

Now won't you take me sailin'
Ridin' on the crest of a dream
All we need is a breeze
Some help fromt the wind
You've got to take me sailin'
Right out of my dreams
And into the night
We may never come back again
When we go sailin'

If they drew a line
Through space and time
That defied my breaking through
It could not control me
No nothin' could hold me
As long as there was you

Now won't you take me sailin'
Ridin' on the crest of a dream
All we need is a breeze
Some help fromt the wind
You've got to take me sailin'
Right out of my dreams
And into the night
We may never come back again
When we go sailin'
We may never come back again
When we go sailin'
