

# Kim Carnes, That's Where The Trouble Lies

(Donna Weiss/Bruce Roberts)

When you want me  
When you hold me  
You make me weak and I can't fight it  
I should face it I have skated  
Way too far out on thin ice  
You break me...  
You shatter my resistance you don't even see  
What you do to me ah

That's where the trouble lies  
That's where the trouble lies  
That's where the trouble lies  
That's where the trouble lies

The best of plans slip through my hands  
You toss them off so easily  
Old desires never fail to make  
Us all act so carelessly  
So take me..  
Treat me like the one thing you'd never leave  
Oh please..  
The user never knows how much the drug shows

That's where the trouble lies  
That's where the trouble lies  
That's where the trouble lies  
That's where the trouble lies

Hot then cold then maybe  
Don't that drive you baby  
Over the speed limit with me  
Huh

That's where the trouble lies
