Send " Just Do It" Ringtone to Mobile I know what you think when you're looking at me

I know what you're doing in your fantasies

I call all hands on deck, boy

I feel what you need, what you're craving for You're dying from lust and there's just one cure

Wait till, i say, attack boy

Afrodisiac boy

Get it now, right away No restraint, no delay

Get to it, just do it

Come and get what you see

If you want it from me

Get to it, just do it

Come on, get down

I got a present for you

Come on, get down

Let me unwrap it for you

I know that you're shy and it's turning me on

I hope that you're ready for the marathon

Count down, just you, and me boy

Hey pretty face, what is blocking your shot?

I wanna find out if I'm hot or not?

Help me, ASAP boy

Get it now, right away

No *restraint*, no delay

Get to it, just do it

Come and get what you see

If you want it from me

Get to it, just do it

Come on, get down

I got a present for you

Come on, get down

Let me unwrap it for you

Touch me slowly and i will be a slave for you Kiss me slowly and i will be a slave for you

I know what you think when you're looking at me

(Just do it)

Get it now, right away

No restraint, no delay

Get to it, just do it

Come and get what you see

If you want it from me

Get to it, just do it

Just do it

(Just do it)

Just do it

Just do it

(Just do it)

Just do it

Just do it

(Just do it)

Just do it
