

Kim Lucas, Let Me Fly

Fly High.....

I know somewhere
You will remember
With every touch
You can free every part of me

I live only for you
To hold me again
Don't make me pretend

Don't dream it's over
We've only begun
Don't dream its over
You're still the one

Let me fly...

Let me fly...

Let me fly....

Don't let me down
I will be waiting
I wanna go back and be safe
In the arms/art of love

I live only
For you to take me up high
Take every cloud from the sun
Oh baby

Don't dream it's over
We've only begun
Don't dream it's over
You're still the one

Let me Fly...

Fly....High...

Let me fly...

Let me fly...

Don't dream it's over
You're still the one

You're still the one

Fly.... High....

Let me fly...

Fly...High

Let me fly...

Let me fly

uhhhhhhhh Fly....High

Fly....High

Let me fly...

Fly.....High

Let me fly

yeahhhhhh....

You're still the one
