

# Kim Lukas, Don't Look Back

I can see what you're trying to say  
You're bored of me that's OK  
Don't feed me with "Let's be friends"  
Well, you've got what you want now go  
Don't act like you care and cry  
You're sorry, alright, I know

Don't look back just leave  
For you this was just a game  
Like weather from sun to rain  
You've turned from hot to cold  
Playing with my mind  
For you this was just a game  
Like weather from sun to rain  
You've turned from hot to cold now

Don't look back just leave  
Just go  
Don't look back just leave  
Just go  
Don't look back just leave

Must, forget all it's in the past  
I knew it would never last  
Strange but I'm kinda glad  
Boy, I know I'm too good for you

So here's what you gotta do  
Get a life and change your hair

Don't look back just leave  
Just go  
Don't look back just leave  
Just go

Don't look back just leave  
Just go  
Don't look back just leave

I can see what you're trying to say  
You're bored of me well that's OK  
Don't feed me with, "Let's be friends";  
No no no no  
I can see what you're trying to say  
You're bored of me well that's OK  
Don't feed me with, "Let's be friends";  
No no no no  
Boy, I know I'm too good for you  
So here's what you gotta do  
Get a life and change your hair  
Yeah yeah yeah yeah
