

# Kim Mitchell, Ain't Life Amazing

I know there ain't no perfect state of mind, okay  
And we all lose faith in the world now and then  
Well, there's no ideal place  
No perfect time or far-off planets out in space  
Maybe we should get a new name for the human race

Ain't life amazing  
Ain't life amazing  
Ain't life amazing  
It's black then it's blazing  
The light's always changing  
Ain't life amazing

Now you know everyone sees what life hands out  
Are you moving on or still waiting by the door  
I can bring my own bright light to warm those darkened days  
See what I mean, it's up to you to find out

Ain't life amazing  
Ain't life amazing  
Ain't life amazing  
It's black then it's blazing  
Whoa, those colours always changing  
Yeah, ain't life amazing

And don't get too down when those clouds come  
Dark moments happen, yeah, and then they're gone  
There's nothing to be gained by holding on, just let them go  
One thing you can count on: change will come

Ain't life amazing

Ain't life amazing (ain't life amazing)  
It's black then it's blazing (it's black, ooh, it's black and it's blazing)  
The light's always changing (the light's always, the light's always changing, yeah)  
Ain't life amazing (it's that state of mind)  
Ain't life amazing  
Ain't life amazing (ooh, that state of mind)  
Ain't life amazing
