

# Kim Mitchell, Dreamer

I watched the sunlight find your window  
One time so far away  
You sent my heart on fire  
One of these days I would say, everybody laughed, I smiled

I was just a dreamer  
Over and over  
I was just a dreamer  
And you were my dream  
A dreamer

There's a boy, there's a girl, there's a place with a love in the middle  
One love we found in one another  
You were there, I was there, we were scared with a love in the middle  
Our love, our hearts, our one desire  
We found one another

One day I saw you looking my way, I wondered  
I saw your eyes, your eyes saw mine  
Oooh what was I really seeing, the eyes of desire, picture of a tender heart
