

Kim Mitchell, Heartbreakbustop

We know what to say
But the words just fade
Wavin' goodbye at the heartbreakbustop
Calling it off before we get on
Calling it off before we get on

We do it all the time
And i'll bet we'll do it again
Falling in love not knowing what we got
Calling it off before we get on

Hearbreak devotion in the run run runaway run run runaway years
Heartbreak devotion in the hide hideaway all the tears

Memorize all the truth
In case love comes back again
Just like the love that i thought we had
Maybe love will come back again

Memorize all the streets
In case i come back again
Just like the love that i thought we had
Maybe love will come back
Love will come back again

Wavin goodbye at the heartbreakbustop
Goodbye goodbye
Wavin good bye at the heartbreakbustop

Guess i'm leavin' town
But i'll be back again
Falling in love not knowing what we got
Calling it off before we get on

Hearbreak devotion in the run run runaway run run runaway years
Heartbreak devotion in the hide hideaway all the tears

You got to memorize all the truth
In case love comes back again
Just like the love that i thought we had
Maybe love will come back again

Memorize all the streets
In case i come back again
Just like the love that i thought we had
Maybe love will come back
Love will come back again

Wavin goodbye at the heartbreakbustop
Goodbye goodbye
Wavin goodbye at the heartbreakbustop
Wavin goodbye
