

# Kim Mitchell, Monkey Shine

Has anybody seen my pumpkin pie  
She pushed me down, but I didn't, I didn't even die  
She just just poked my eye

Found what she wanted inside my mouth  
She made me look both ways like a good boy scout  
In and out, yes, in and out

Cause when she says come here and do me  
In a place that's wrong but feels all right  
That's when she says

I'll open up, I'll bend your mind  
I'm here, feel that monkey shine  
Absitively...posoloutely  
Throw it to me  
Feel that monkey shine

Skinnin' it skinnin' it all alone  
Couldn't blow down her house of stone  
Now you rock and you roll  
Roll your own

Cause when I walked into her movie  
She licked the butter off my hands
