

# Kim, Music And Me

Weve been together  
For such a long time now  
Music, music and me  
Dont care whether all our songs rhyme now  
Music, music and me

Only know wherever I go  
Were as close as two friends can be  
There have been others  
But never two lovers  
Like music, music and me

Grab a song and come along  
You can sing your melody  
In your mind you will find  
A world of sweet harmony  
Birds of a feather  
Well fly together  
Now music, music and me  
Music and me
