

Kim, Music And Me

Weve been together
For such a long time now
Music, music and me
Dont care whether all our songs rhyme now
Music, music and me

Only know wherever I go
Were as close as two friends can be
There have been others
But never two lovers
Like music, music and me

Grab a song and come along
You can sing your melody
In your mind you will find
A world of sweet harmony
Birds of a feather
Well fly together
Now music, music and me
Music and me
