

Kim Petras, Deeper

Do you wanna go deeper, deeper
Than anybody's ever been before you, babe

Mascara on, my hair's messed up, let's get it goin'
Dom Perignon, my heads been spinning all night long
Champs-Élysées, So High, G five, till Saint Tropez
Just you and me, all night all day, I'm down to play

I know you've been hurt before
Close your heart and lock the door
You don't wanna lose control
Baby I just gotta know

Do you wanna go deeper, deeper
Than anybody's ever been before you, babe
Do you wanna go deeper, deeper
I just really need to know, where you wanna go

Do you wanna go deeper, deeper
Than anybody's ever been before you, babe
Ah

I don't schedule, if you wanna get me get flexible
Forget the yacht, the pool, the Bentleys,
So fashionable you're lasting all season, yeah

Lasting all season, I
Make you believe in love,
Can you get deep enough
Can you get deep enough

I know you've been hurt before
Close your heart and lock the door
You don't wanna lose control
Baby I just gotta know

Do you wanna go deeper, deeper
Than anybody's ever been before you, babe
Do you wanna go deeper, deeper
I just really need to know, where you wanna go

Do you wanna go deeper, deeper
Than anybody's ever been before you, babe
Ah
