

Kim Putnoky, There's No Dreams

There's no dreams

in the beginning there was nothing
not even a human being
but as are might God made a plan
we all knew that we can
be they best that we can be
no matter what anyone says
his words will lead us to the key
to save our lifes thats what he says

There's no dream
within a dream
no more wanting
what we can't have
just stick to his word
and will be alright
There's no dream
within a dream
noe more wanting
what we can't have

so just remember his words
your life will be so much better
don't get dismay
if you do sit down and pray
he will be there
till the end
just wait and see
don't worry
what will happen next

There's no dream
within a dream
no more wanting
what we can't have
just stick to his word
and will be alright
there's no dream
within a deam
no more wanting
what we can't have

so just remember
what he said
over and over and over again
he will lead us to the right path
wait and see
it will be

chorus 2x
