

# Kim Richey, Come Around

I don't miss the good old days  
I've learned a lot since then  
I've changed my ways  
I'm not bothered by those things that used to get me down  
Only when you come around  
But, I don't carry much regret  
We all hold something that we'd just as soon forget  
And I remember like it was today  
The love we found  
Every time you come around  
Every time you come around  
Well, I'm the first to say I should forget you  
And I wish I could  
But sometimes wishes don't come true  
It doesn't seem like much to ask  
To live a life that isn't caught up in the past  
But there's really no place left on earth  
For me right now  
I wish you'd come around  
I wish you'd come around  
Why don't you come around
