

# Kim Richey, Let It Roll

When I'm a breath away from going down  
A step away from losing ground  
And the price for love has come due  
And when I'm just barely hanging on  
On the edge of too far gone  
And I need something to get me through

## CHORUS 1:

When there's no reason to believe  
And life ain't all it's cracked up to be  
Let it roll over me  
When my last chance goes up in smoke  
And I can't see a shred of hope  
And the tears can't wash away these blues  
And when my best shot keeps fallin' short  
And I don't care much anymore  
'Cause my poor heart feels used

## CHORUS 2:

When love ain't all that fair  
I sing out a simple prayer  
Let it roll over me  
Let it roll, let it wash away  
Let it all fall where it may  
Let it roll right over me

## CHORUS 3:

When there's no place left to run  
Yeah, if that day should ever come  
Let it roll over me  
Let it roll over me
