

# Kim Richey, Let The Sun Fall Down

Close the door  
And leave the world behind you  
Open a window  
Listen to the breeze flow through the pines  
Take a deep breath  
What more can you do...

Chorus:

Let the sun fall down  
All around you  
And let the night surround you  
In a blanket of starlight  
I'll whisper you a lullaby  
Let the sun fall down...  
That old dark cloud  
Acts like he knows you  
Takes up to much time,  
Time you could be spending holding me  
And he can't have you now  
It's you and me here in this room  
Ohh Ohh...

Let the sun fall down  
All around you  
And let the night surround you  
In a blanket of starlight  
I'll whisper you a lullaby  
Let the sun fall down...  
The world will keep on turning  
It'll all be there come morning  
So tonight...

Let the sun fall down  
All around you  
And let the night surround you  
In a blanket of starlight  
I'll whisper you a lullaby  
Let the sun fall down...  
Ohh Ohh...

Let the sun fall down  
All around you  
And let the night surround you  
In a blanket of starlight  
I'll whisper you a lullaby  
Let the sun fall down...
