

Kim Richey, Let The Sun Fall Down

Close the door
And leave the world behind you
Open a window
Listen to the breeze flow through the pines
Take a deep breath
What more can you do...

Chorus:

Let the sun fall down
All around you
And let the night surround you
In a blanket of starlight
I'll whisper you a lullaby
Let the sun fall down...
That old dark cloud
Acts like he knows you
Takes up too much time,
Time you could be spending holding me
And he can't have you now
It's you and me here in this room
Ohh Ohh...

Let the sun fall down
All around you
And let the night surround you
In a blanket of starlight
I'll whisper you a lullaby
Let the sun fall down...
The world will keep on turning
It'll all be there come morning
So tonight...

Let the sun fall down
All around you
And let the night surround you
In a blanket of starlight
I'll whisper you a lullaby
Let the sun fall down...
Ohh Ohh...

Let the sun fall down
All around you
And let the night surround you
In a blanket of starlight
I'll whisper you a lullaby
Let the sun fall down...
