

# Kim Richey, My Whole World

I'd almost convinced myself it wasn't true  
Till the very moment he walked in with you  
Now I'm pretending I'm not staring at the proof  
But there's no denying that inside I'm crying  
As I watch you walk off with all my dreams

CHORUS:

There goes my whole world up in smoke  
I might be laughing if I weren't the joke  
There goes my whole world with someone new  
There goes my whole world  
There goes my whole world with you  
Hope you never find yourself in my place  
Watching him with someone else while your heart breaks  
A little bit of that sure goes a long, long way  
I will remember this day forever  
As I watch you walk off with all my dreams

REPEAT CHORUS 2X
