

Kim Sanders, Ride

Ride baby ride, ride to the other side
Ride baby ride, if there's a life ahead you wanna find
I think you gotta take that ride
Go baby go, do what you gotta do
Go baby go, I think you'll never be satisfied
Unless you gonna take that ride
But then again, think of what you leave behind
Yes and again, think of what you never might find
If you take that ride (ride)
If you take that ride (ride)
Ride (ride)
If you take that ride (ride)
Ride to the other side
Ride to the other side
Think of this, think of this
There'll be something that you'll always miss
If you don't take the time and find a little piece of mind
Learn about, learn about
All the things that make you scream and shout
The ways of joy, my love when it gets to you boy
But then again, I wish that you were in my shoes
Yes and again, I hope that I will never loose you
If you take that ride (ride)
If you take that ride (ride)
Ride (ride)
If you take that ride (ride)
Ride to the other side
Ride to the other side
