

# Kim Viera, Daddy Yankee, Como

baby you got me excited  
striking me down like you can  
just like lightening  
I love when our lips are fighting  
and do it all over again  
love so blinding

don't wanna go, go , go , go nowhere  
wanna be all on you as long as you're here  
inside yur arms, this is paradise  
my future's in your eyes

don't wanna go, go , go , go nowhere  
my eyes roll rack when you're pulling my hair  
as long long long as you don't disappear  
don't be afraid, take me there

you wanna come ride my wave like the ocean  
you wanna kiss on my skin like the sun  
show me, como  
you wanna love me right now till forever  
just don't talk baby , ypu ggotta show,  
show me, como

don't go away  
go away no  
go away now  
I don't want nobody  
nobody else  
you're my favorite work of art out on display  
come away, and we'll escape

you wanna come ride my wave like the ocean  
you wanna kiss on my skin like the sun  
show me, como  
you wanna love me right now till forever  
just don't talk baby , ypu ggotta show,
