

Kim Wilde, Everything We Know

Written by Ricky & Kim Wilde
Don't bring your gun 'round here
Don't need you mouthing off your fear
It touches all you can build a wall
We all have tasted tears
Everything we know
Everything we know
Everything we know
Everywhere we go
We walked along the beach
Once lovers now we're out of reach
Windy skies, they kissed me goodbye
It takes experience to teach
Everything we know
Everything we know
Everything we know
Everywhere we go
Nobody laughed today
I went to watch the children play
Their smiles and mine were frozen in time
I'll just remember them that way
Everything we know
Everything we know
Everything we know
Everywhere we go
