

Kim Wilde, Life And Soul

Written by Kim Wilde & Tony Swain

Yeah yeah alright

Life and Soul

They say that it's a fact of life we'll die

But I say the fact of life is life

And as I breathe the air of another lonely day

There's something I've been meaning to say to you

I know I let you down (trust in me)

Didn't realise what I'd found (trust in me)

All I need is for you to know

Oooh you're in my soul

Love is a lesson hard to learn

Pain is a fire that keeps on burning

Come back baby (I'm gonna give you)

Oooh Oooh

Pride is a wall that we can climb

Baby hold on together we'll find

Life and Soul

Ayone who hurts you hurts me too

And all I want is

That life is good to you

And whether I am near or far away

I'm with you every, everyday

I know I let you down (trust in me)

Didn't realise what I'd found (trust in me)

All I need is for you to know

You're in my soul

Love is a lesson hard to learn

Pain is a fire that keeps on burning

Come back baby (I'm gonna give you)

Oooh Oooh

Pride is a wall that we can climb

Baby hold on together we'll find

Life and Soul
