

# Kim Wilde, True To You

Written by Kim Wilde & D. James

I'll be true

I won't lie baby

Trust me when I say

You're asking me where is it we go from here

The answer is open in my mind

Who knows where we'll end our journey

Love is a lesson

We're still just learning

But one thing you can be sure of is

I'll be true

I won't lie baby

I'll never lie to you

I'll be true

Trust me when I say

True to you

So many people make the same mistakes

Giving promises they can't keep

And after their hearts are broken

With words they both wish had never been spoken

And lies that they pin their hope on but

I'll be true

I won't lie baby

I'll never lie to you

I'll be true

Trust me when I say

True to you

Love and honesty is what you're gonna get from me

Every step of the way

You can trust me, when I say

I'll be true

I won't lie baby

I'll never lie to you

I'll be true

Trust me when I say

True to you

I won't waste your time baby
