

# Kim Wilde, World In Perfect Harmony

Written by Ricki & Kim Wilde

Let's think of the good things

Instead of all the bad

We mustn't give into

A world that's going mad

So hold on, we can survive

We've got to keep the spirit

Of destiny alive

Just say that we can if we try

Like the rivers need the mountains

Just like the flowers need the rain

Pleasure need the pain

However far away it seems

I'm dreaming for a world

In perfect harmony

And we've got to face it

There's nowhere left to hide

(but we need) a determination

To change the wrong to right

The future's a baby born

Looking for us for strength

To keep it from harm

You know we'll succeed if we try

Like the rivers need the mountains

Just like flowers need the rain

Pleasure need the pain

How ever far away it seems

I'm dreaming for a world

In perfect harmony

Don't let your dreams escape

The future's ours to shape
