

# Kina Grannis, Down And Gone (The Blue Song)

Blue like my hands  
Blue like my heart  
I drown inside  
So it came that i settled for  
This raft in mind  
Drift away, away, away down  
You never fell i picked you up  
I'm waking up early  
No one ever feels like they're perfect  
But i feel we're perfect here  
I've got to speak  
My eyes can't keep this secret down and gone away  
I'm feeling it shouldn't be long until we both remember why  
Why we kept each other around all this time  
I sensed you'd come around, boy  
And here we stand  
It is so strange how we've come so far and nothing's changed  
We are what we are  
Come so far  
To keep me down and gone away  
I'm feeling it shouldn't be long until we both remember why  
Why we kept each other around all this time
