

Kind Of Like Spitting, Blue Period

Overly enthused.. easily confused, do you really even have to ask?
Why you feel so.. why you feel so used..
Common obligations, common complications
She said to me in the dark
That it was just like suicide that and that you really dont wanna die
but you've said it so many times.
Like a musical trend, you see it as a phase
a predictable film..with a forgettable end
Why does boy meet girl leave me feeling ripped off?
The love police have been tipped off
Following a trail of denyle they've all gone on trial
Saying dont worry for the lack of quilt leave it for the cleaner

You say keep your chin up.

Here we are in the open air the glow of our goddless season
We're fighting for no reason
we both want the same things
And its just like suicide i really dont wanna die
But we've been through this so many times
Its just like suicide i really dont wanna die
But the choice aint mine.
