If you could take the weight of the world off my shoulders  
Darlin', it would change the way of the world for me  
It's not hard, can't you see  
All the things we talked about will happen.

When I'm walking by your side  
Not all you see is golden  
When a horse is running wild  
It leaves the beast of burden  
If you could take the weight of the world off my shoulders.

If you could take the stars from the sky and send them to me  
Darlin', that's not love, it's a trick of the light you played on me  
The simple things that I don't see  
Knowing that I need someone to lean on.

When I'm walking by your side

Not all you see is golden  
When a horse is running wild  
It leaves the beast of burden  
When I'm walking by your side, oh oh.

It's not hard, wait and see  
All the things we talked about will happen.

When I'm walking by your side  
Not all you see is golden  
When a horse is running wild  
It leaves the beast of burden  
When I'm walking by your side (walk by my side)  
Not all you see is golden  
When a horse is running wild (walk by my side)  
It leaves the beast of burden  
If you could take the weight of the world off my shoulders.

Walk by my side - take the weight of the world  
Walk by my side - take the weight of the world  
Walk by my side - take the weight of the world  
Walk by my side - take the weight of the world.
