

King Adora, Sweet Abandon

Ground swallow me again
A street without a name
A means without an end

Scratch your number on my heart
I'll always love you
Every second we're apart
I'm fading out again

It's more than I can take
There's nothing left to gain
Anaesthetise the pain

Scratch your number on my heart
I'll always love you
Every second we're apart
I'm living over again

I've always held a flame
A needle and a vein
It always feels the same

Scratch your number on my heart
I'll always love you
Every second we're apart
I'm living over again

I've always held a flame
A needle and a vein
It always feels the same
I'm fading out again
