

King Adora, Whether

C'mon kids get yourselves real high
Be young forever love
Go down your hair in dye
Be young be young be mine
My love, this time
Stay close to what you are
My love, we shine
In you I am entwined

They'll never change us
Or rearrange us
Forever changing me
The weather changes
And rearranges
But they're never changing me

Does rejection suck you off
Be young be young believe
My love, I bleed
With every word you breathe

They'll never change us
Or rearrange us
Forever changing me
The weather changes
And rearranges
But they're never changing me

My love, be young be young be us
My love I know
Without you I am nothing

They'll never change us
Or rearrange us
Forever changing me
The weather changes
And rearranges
But they're never changing me.
