

King Geedorah, No Snakes Alive

"Ha ha ha ha ha ha!"

(King Ghidra/King Geedorah)

..Ghidra has arrived

You guys could take five

By the time it's over...

No snakes alive!

Take the dive, I'm tellin you, you better off

Then up against a flow to make her, take her sweater off

From the set off when it came to scripts he could hardly brag

It's the result of concentration, and lolly-gag

I said "Yeah right" he pulled the mic out a snotty rag

Sealed up air-tight, and wrapped up in a body bag

Get a advance and catch chance writer's block

After spendin the first and last penny

My own worst enemy

Tell me if I'm OD and usual flow

And made deals with these cats who keep sending dough, so

The Three Headed said it, never get busted

He's a man of his word who's not to be trusted

Beats encrypted, multi-faceted encrusted

Shorty pawn, keep mic rusted

(*The beat and rapping get's faster*)Sort of mellow type of fellow

Who sometimes spaz on wife like Othello

Hell no he won't use words like illuminati

Or Gotti all shotty might use karate

Azar the Gaza cut I'll ask why a mask

With the gall style caps say nice fly

(*Flow goes back to original*)Exact dough til it stack high, white ho, black
guy

The rap game, black eye

(Jet Jaguar)

Exhilaration, Jet Jag's accelerations

Touch speeds minds can't concieve

Achieve altered, attitudes and angles, angels answer

Aura, illumilation, awesome interperation

Awkward alarm, ankle house arrest and who's best?

Monster Island Czars

Crush pawn dreams to be king

A frank reality

Calculation could never be

Quest destined, distant competition dusted

Disgusted raise for second, crowded

clouded confusion, conclusion: simple, plain

Self education, self made millionaires

Serpents slitherin, sidewind searchin

Stalkin, heat sensin

(*Beat goes faster*)Can't have me Jet Jag's riki tiki tavi

Superhero hit zero to sixty

Hot pursuit, pedal to the floor

Handlin lyrics, traction swervin

Left right makin head fix, layin high stakes

Levitates, quick hit breaks

They fly past hit war parts fly loose, kill a mongoose

(Rodan)

Fake niggaz contiue to practice the art of intimidation

Sterile minds concieve and threw up all artificial insemination

Syntax a sequential rage unless it's all deliberate

Angle wide words clear, but population stay illiterate

Consider it God's a fine power, fools get rid of it

Men build dreams on promises but lacken the will to deliver it

You, I dissolve connivers like saliva on tic tacs

World is strange, but get the job done like sises mix max
Flip tracks, murder stinks, drunk niggaz killin six packs
Chokin on venom, suffered tricknological kick backs
Poverty stricken minds, all thoughts barely worth two cents
Build history through time, many a design on blueprints
Anooshes slides in the sky, eight-five percent never knew
Wise men arise, pull files like internal revenue
Forever true, appauled? There's self evidence with leverage
(*The beat and rapping get's faster*)Upset? The beast belly concoct
homogenised beverage
Clever shit, calculate a sabatoge trojan horse
Gift from ? see through any G motion that grows in force
Chose to toss to teach familiar line throughout the underworld
God of elevation kills Superman, rape Wondergirl
The discounted, decapitated rapist it's acceptable
The everyday occurance a fatal outcome's inevitable

(King Ghidra/King Geedorah)
..Might as well join the forces boss
Chance take a loss like coin toss
Roll with the double headed nickel
Pawn the pawn a Jet Jag with the sickle you and a pickle
King Ghidra yo you ass betta leave 'em alone
Before ya go catch a seizure and leave 'em blown
If you ain't the best of the best in the top three
Either myself, I and me
Don't even think of caps
But act like you had a slight inkling perhaps
Or get smacked back in the ring like Bob Backlund
Ink jet black and wack...

"Hahahahahaha!
Hey, what's the meaning of this?"
"Shut up!"
"Hahahahahaha, young man.."
