

King King, You Stopped The Rain

You stopped the rain
You saw the light
When you walked into the flame
The darkness took his side
At the end of the world
A man he stands alone
There's a shadow
In the last real life
See,
You better come on home

I don't if
I was you
If I
Could stand up
Tall like you
And I've been holding on
To what went wrong

I don't know
How
Life could be so
Hard, for someone
Just like you
And I can take the pain
But that was wrong

Reality
Hold you still
A moment in time
Desperation lifts your head up
Show me a sign

I only wanted to take your pain
And all you fear is life
You never let it take you down
You couldn't if you tried

I don't if
I was you
If I
Could stand up
Tall like you
And I've been holding on
To what went wrong

I don't know
How
Life could be so
Hard, for someone
Just like you
And I can take the pain
But that was wrong

I know you can't stop the rain (rain)

I don't if
I was you
If I
Could stand up
Tall like you
And I've been holding on
To what went wrong

I don't know
How
Life could be so
Hard, for someone
Just like youuu
And I can take the pain
I've stopped the rain..
