

King's X, No Lie

Spoken:

I've never sung this song before

Sung:

Every night i call you on the phone, no lie
and every night i sit here all alone, no lie
every night i walk across the floor, no lie
every night i wait outside your door, no lie
oh something's got a hold
every night i know you are alone, no lie
every night i want you for my own, no lie
every night i sit here wondering why, no lie
every night i see that love is blind, no lie
oh something's got a hold
oh something's got a hold
oh something's got a hold
oh something's got a hold
