## King's X, You're The Only One

you took me to the top you took me from the cold you took me from myself you broke my heart of stone

do whatever you want do whatever you need do whatever you like do whatever you please

cause you're the only one that can do this to me you're the only one who can make me crazy my head is spinning i'm going wild oh yeah

you are my fantasy, and my reality you always come around, after you bring me down

do whatever you want do whatever you need do whatever you like do whatever you please

cause you're the only one that can do this to me you're the only one who can make me crazy my head is spinning i'm going wild oh yeah
