

# Kingdom Come, Do You Dare

Make no sound - start to feel  
In and out - nothing's real  
Love is rising - want to share  
Come on out - I'll be there

[Chorus:]

You'd rather hide - behind uniform  
Sitting inside - the eye of the storm

Do you care - do you dare  
I'm calling you - meet me half way through

The human mind - 's hard to read  
Disbelief - killed the seed  
Fear is rising - sure you know  
The only way - 's to let it go

[Chorus:]

[Double-Chorus:]

love's cool breeze  
Make the call - you can't fall  
Warm and true - 's what I'll be to you
