

# Kingdom Come, Gotta Move Now

Deep in my heart - there's the storm  
Always changing - cold and warm  
I have slipped out - run and hide  
Till I found out - what is right

Like a sharp thorn - won't let go  
Like a new born - needs to know

No more pain now - calling out  
She's my baby - there's no doubt

Gotta move now  
Get in on now  
Talking's done now  
Taking charge now

Here I am again - it ain't over  
What a fool you think I am - cannot leave her

I don't care friend - love doesn't need to make sense

Never told her - you're the one  
While she waited - all so long

Gotta catch her - let her know  
Ain't afraid now - touch and go

Gotta move now  
Get in on now  
Talking's done now  
Taking charge now
