

Kingdom Come, Highway 6

Every hour somebody's drivin' down the highway 6
I'm talkin' 'bout the road that'll lead you to the River Styx

A man down there says he's gonna take away your pain
I tell ya he's a liar and you'll never see your friends again

I lost a friend of mine who took that road
He felt the world had turned and left him cold

Highway 6
Doesn't take you home
Highway 6
Deadly fix

The pressure rises you can't take the load
You've got no hand to hold except your own

Highway 6
Doesn't take you home
Highway 6
Deadly fix

I know these words, they may not save your soul
But there's a way you should not ever go

Highway 6
Doesn't take you home
Highway 6
Deadly fix
