Kingdom Come, Highway 6

Every hour somebody's drivin' down the highway 6 I'm talkin' 'bout the road that'll lead you to the River Styx

A man down there says he's gonna take away your pain I tell ya he's a liar and you'll never see your friends again

I lost a friend of mine who took that road He felt the world had turned and left him cold

Highway 6 Doesn't take you home Highway 6 Deadly fix

The pressure rises you can't take the load You've got no hand to hold except your own

Highway 6 Doesn't take you home Highway 6 Deadly fix

I know these words, they may not save your soul But there's a way you should not ever go

Highway 6 Doesn't take you home Highway 6 Deadly fix
