

Kingdom Come, Janine

I strayed all over town
Memories all around
Long time since I have seen
My good old friend Janine

Always on my mind
Wondering if she's fine
I called her on the phone
I wish I would have known

Janine...

It happened all so fast
We both had such a blast
I thought it was a dream
The wildest one I've seen

Her body full of life
Got me mesmerized
It shook me very hard
For the money she had asked

[Chorus:]
Can't believe what's going on
Look around what you've become, Janine!
Watch your back and be alert
Cash is ruling our world, Janine

She's putting on a mask
Is loving you for cash!
I told her, please watch out
She started laughing loud
