

Kingdom Come, Little Wild Thing

Little wild thing
Hard and cold she seems
To one who does not know her
But deep down inside she's warm and bright
I know her

[Chorus:]
Little wild thing
You've got that something
Little sweet thing
Misunderstood thing

She's heard it all and built a wall to save her
And she does not like for someone to control her
She ain't no fake , just give and take
I love her

Such a precious mind is hard to find I told her
She did not reply just gave a sign to love her
