

# Kingdom Come, Not Here To Be Your Friend

Think you got it figured out  
The wisdom on your tongue so loud  
Thriving on what others do  
Pointing fingers, call it news

Once you have left your hole  
Your mind is still facing walls  
The circle is touching ends  
I'm not here to be your friend

Solutions easy come my friend  
Show us how and take a stand  
But should you try it on your own  
You're fading right down to your bones

Once you have left your hole  
Your mind is still facing walls  
The circle is touching ends  
I'm not here to be your friend

Never mind how I show  
Don't need to say hello  
A calling so hard to find  
Once found it never dies
