

Kings Of Leon, Milk

Salty leave
Salty leave

Tell me the one about the friend you knew,
And the last good night that we toasted too.

Salty leave,
Stay for me,
Stay for me

We drank wine in the matinee
And the spotlight showed what I chased away

Stay for me

She saw my comb over, her hourglass body
She had problems with drinking milk
And being school tardy
She'll loan you her toothbrush
She'll bar tend your party

Kill me
Kill me

I called and I called, but I cant get through
Said he's on his own, but his own is you

Kill me

She saw my comb over, her hourglass body
She had problems with drinking milk
And being school tardy
She'll loan you her toothbrush
She'll bar tend your party

She saw my comb over, her hourglass body
She had problems with drinking milk
And being school tardy
She'll loan you her toothbrush
She'll bar tend your party
