

# Kip Winger, Monster

I had the impression  
That deceivingly  
You dress down so no one  
But the monster sees  
The sound I'm hearing  
It must be a sign...

Now my monster is on to you  
Now my monster is on to you  
And you knew it would come to you  
Now the monster lives on in you

Believe in me  
Like vampire bait  
So naive  
Only the monster sees  
Your dragon fly  
Must be a sign

Now my monster is on to you  
Now my monster is on to you  
And you knew it would come to you  
Now the monster lives on in you

And if you use me  
I would like it  
I can't help it  
Only hide it  
There's no way out...

The sound I'm hearing  
It must be a sign  
..must be here...  
..must be a sign...  
Not to leave you here

Now my monster is on to you  
Now my monster is on to you  
And you knew it would come to you  
Now the monster lives on in you

One soul through me to you  
Passes unwanted truth  
One laugh, one cry away

I had the impression  
That deceivingly  
You dress down so no one  
But the monster sees

No one but the monster sees

You see what you want to see

In me...
