

# Kirk Franklin, Keep Your Head

## Verse

I look in your eyes, I know your fight  
I feel your trouble waiting in line  
Praying this time, life won't pass you by  
In the news another one dies, tell me what do you do  
Negativity pulling me down, I can't stay down  
I wish I could make it go away  
Wish I could find the right words to say  
I'm calling You please, Jesus I need to hear a word from You

I gotta know that there's more to this life than what I can see  
And wanna feel how it feels to know real love and see me happy  
Have a faith that can say to a storm you're temporary  
I wanna be free, If you wanna be free

## Chorus

[Keep your head] I'm keeping my eyes on you  
You gotta come through, cause You promised me  
[Keep your head] can hardly wait til You come  
Cause You're the one my heart's been waiting for

## Breakdown

Clap your hands ya'll, all my people can you clap your hands  
Let me hear you say  
If you know that things have gotta change, say  
That nothing grows without a little rain, say  
That no matter what they tell ya God is waiting and He's listening  
Don't look back, cause it gets better say

If you're blessed to have healthy kids say,  
If you're blessed to have a place to live say,  
Stop chasin' after everything you see  
Might not have everything you want, but you have everything you need
