

# Kirk Franklin, Thank You

(Lalalalalala)

Mary Mary (thank you)

When I look back over my life (thank you)

And all the times you brought me through (thank you)

I just wanna say father, thank you

When I was lonely, and needed some one to hold me  
You were beside me, when my nights were cold and lonely  
You never let me down when no one else could be found I  
Always count on you to see me through, I'm telling you that,  
You are the reason, I'm alive and I'm still breathing  
For me you gave your life and now my life it has no meaning  
When I think about your grace, and I finally see your face  
There's one thing I need to say, wanna say, yeah

(Thank you Lord for loving me

Thank you Lord for keeping me

Thank you Lord for that day you came and broke the chains and set me free

Thank you for another chance, you gave me joy now I can dance)

All the people open up your mouth and let me here you say thank you (thank you) thank you (thank

(Thank you lord for one more day, you made the raindrops go away

Thank you cause my pain is gone, I know it came to make me strong

Thank you for another chance, you gave me joy now I can dance)

All the people open up your mouth and let me here you say thank you (thank you) thank you (thank

(La) thank you (la la) thank you (la la) is he worth it? (la la la)
