

Kirlian Camera, Illegal Apology Of Crime

We are here to destroy the sun
The rusty sun
Now.
We've found the real way
To turn off its dumb heat.
None of you
Will have a chance to kill us.
Learning this will be fine.
We can say we are the death.

We're trying to carry out
A realm of terror...
No human being even dreamt of it.

It's clear we shall wipe out
Any resistance,
Now.
