

# Kirlian Camera, Thanks Pigs

Fly with your mind  
to hot summerland  
Take a break  
in the morning air  
While everything runs in the best way.  
Let's call on the phone  
your closest friend...  
Maybe tonite  
we will reach the West  
watching the night sky  
dreaming the best.  
Dreaming the sun sky,  
getting the best...  
This is not the right place  
for those psychopaths  
I write about in my trendy craps...  
(Lucifer is an angel  
living on the violet hill)...  
Hawaiian shirts and some vodka-ice  
Don't wanna see any well-known faces  
... Writing reviews for some music mags...  
... eating hot-dogs on the golden sands... sands...  
Nobody can do anything to me  
This isn't fiction and not a film.  
"We're just the alternative ultra-chic...  
Killers exist only in your fantasy..."
