

Kiros, Let Go

just say what you're gonna say
it doesn't matter anyway
judge my heart my soul my all
but i will not fall down to where you stand
instead i'll offer you my hand
you only see with hate and fear
i'll move on but you'll stay here
you see with hate i'll see with love
you will fall down i'll rise above
i'll be just fine you'll feel your pain
my thoughts are mine
you'll be ashamed
