

# Kirsty Hawkshaw, Bigger Picture

It's raining outside  
But it won't wash away my decision  
At first you were real  
But now you were just an illusion  
My world may feel empty right now  
I'll fill it in, find a way out  
I've got to wipe off this face  
Put the puzzle back together

See the bigger picture

And I'll never let it happen again  
And I'll see it someday I don't know how or when  
And next time I'll get it so good  
After the lessons you taught me it should  
Next time I'll get it so right  
After the tunnel they said there's a light

And the bigger picture

I showed you my soul  
But I placed you too high in my eyes  
I gave all the trust I had  
Ever could, ever will  
We all mistake deceit for grace  
Get it all thrown back in our face  
So I'll take this pain  
And give it to the sky

Because I'll never let it happen again  
And I'll see it someday I don't know how or when  
And next time I'll get it so good  
After the lessons you taught me it should  
Next time I'll get it so right  
After the tunnel they said there's a light

And the bigger picture  
Maybe I'll see it then  
The bigger picture  
You couldn't take it  
To the sky  
You couldn't see it  
To the sky  
You'll never be in

My bigger picture
