

Kirsty Hawkshaw, Reach for me

Reach for me
don't wanna wait another day without u
take me to higher ground
we'll be safe and sound
reach for me
shouldve known right away
when it felt too good to be true
cuz youve never said
wut u mean to say
anyway u look at it, im confused
if u cant see where this is gonna lead,
reach for me
don't wanna wait another day without u
take me to higher ground
we'll be safe and sound
come on, reach for me
i can't wait another day without u
take me to higher ground
we'll be safe and sound
reach for me
just reach for me
ive got it all figured out
u decide wuts best for u
cuz u will build me
so dont let me down
i cant make u do
wut u dont want to
if u cant see where this is gonna lead,
reach for me
don't wanna wait another day without u
take me to higher ground
we'll be safe and sound
come on, reach for me
i can't wait another day without u
take me to higher ground
we'll be safe and sound
reach for me
come on, reach for me
don't wanna wait another day without u
take me to higher ground
we'll be safe and sound
come on, reach for me
i can't wait another day without u
take me to higher ground
we'll be safe and sound
reach for me
